CAREER SUMMARY

Recent B. Tech graduate in Information Technology with a passion for Become a good Engineer in IT Field. Proficient in C-Programming Language and Java and eager to contribute to innovative projects while continuously expanding my technical skill set. Plant Leaf Disease Detection Using Machine Learning is our final year projects we work patiently and efficiently for the completion of the projects and our paper is communicated in the Journal of Engineering Application of Artificial Intelligence.

SKILLS AND STRENGTHS

- **C-Language**: As a Prior Language I have learned it first and gain the core concepts of
- programming languages.
- **Java:** Core Java concepts, Oops Concepts and Practice.
- **Data Structure and algorithm:** Solving Problem of DSA at Hacker rank. Core concepts of Data structure and algorithms like Linked List, Array and Stack.
- **HTML**: Structured the clone projects and portfolio using HTML.
- **CSS**: CSS is one of the Styling the web pages and make it awesome.
- **JavaScrip**t: I have Learn it from W3school, You Tube and applying it on my personal project.
- **React.js**: Framework for the frontend web development.
- **MySQL**: Structured query language used to store, retrieve, delete data etc .in the database.
- **Git and GitHub:** learned from YouTube and gain knowledge.
- **Communication Skill**: To Talk others in a professional way.
- **Analytical Skill**: To Analyse the trend and Patterns in short time.

PROFESSIONAL ACCOMPLISHMENTS

- Frontend Web development internship completed from Ekalsutra and Code alpha, Work on real time projects, achieve knowledge and get the Internship Certificate.
- Highly motivated B.Tech graduate possessing a strong academic foundation. Successfully completed the degree **without academic backs** and got **First Division with distinction.**
- Plant Leaf Disease Detection using machine learning is my final year project on which I have worked hard and smartly to doing code and Research paper to publish my paper.
- Coder at HackerRank and Achieved 4 Star (****), in Java Programming Language.

WORK HISTORY

Ekal sutra - Ambedkar Nagar, Web developer (Internship), (10/2022) -(12/2022)
Works as Frontend Developer as well as Testing.

EDUCATION

B.Tech(Information Technology), Awarded 1st Division with distinction - 7.66 CGPA. , Graduation Year (2024), Rajkiya Engineering College Ambedkar Nagar Uttar Pradesh India.
